Dear Pet Owner,

Our goal at Westlake Pet Love is to relieve the separation anxiety that you and your pets experience when you must be away from them. Whether it be an unavoidable business trip or the much deserved vacation, or if there are simply not enough hours in your day, we will keep your pets safe and cared for in their home and leave you free to enjoy your time away.

My name is Lisa Poth and I am the owner of Westlake Pet Love and Austin Pet Love. I began Austin Pet Love eight years ago and it has been an extremely rewarding, fulfilling and successful experience. I decided to launch Westlake Pet Love because I wanted to grow the dog boarding side of Pet Love as well as provide excellent pet sitting and be able to cater more to the Westlake community in which I live.

Originally from England, I moved to Texas thirty years ago and have enjoyed living in and raising my three wonderful children in the Westlake community for the past seventeen years. With two children now at The University of Texas and only one left at Westlake High School, I enjoy dedicating the majority of my time to my own nine pets and to the many pets left in my care.

Along with excellent pet sitting services in your home, at Westlake Pet Love we provide boarding services at our home. Dogs in our care are treated as part of the family. There are no kennels or crates and the dogs thoroughly enjoy running free and exploring our four, fenced acres and then cooling off in the pool! Your pets are never left outside unsupervised and we enjoy sending you updates and pictures of them playing, running and swimming.

At Westlake Pet Love we sincerely believe that home care is the best choice. We are not a huge company or a franchise. We are a local, home grown company in Westlake with a select staff dedicated to caring for your pets, and you.

Sincerely,
Lisa Poth.
